EDUCATION

Georgia State University <i>Computer Science - 12/2025</i>	2021 – dec 2025 <i>Atlanta, GA</i>
--	--

WORK EXPERIENCE

AmmALogic - Internship <i>Intern</i>	Summer 2023 <i>Atlanta, GA</i>
- Assisted in data labeling for supervised machine learning models to improve data quality for training purposes. - Contributed to the fine-tuning of a LLama 2 model using Reinforcement Learning from Human Feedback (RLHF), with an emphasis on Hausa language processing. - Gained fundamental insights into Generative AI and Large Language Models, along with general machine learning methodologies.	
Knack: College Tutoring New Math Tutor	Jan 2024 –May 2024 <i>Atlanta, GA</i>
Tutoring peers through knack tutoring online platform	

EXTRA-CURRICULAR ACTIVITIES

Dunwoody Computer Science Club <i>Member</i>	Fall 2023 <i>Atlanta, GA</i>
- Assisted in researching software for a weather app and developing the website for the project using flask. - Contributed to the development of a weather forecasting application using Java as the primary programming language, leveraging the Open Weather API to fetch real-time weather data.	
Clarkston High School <i>Volunteer</i>	fall 2023 <i>Atlanta, GA</i>
- Engaged in computer science activities and taught students to use loops for solving mazes. - Assisted the supervising professor in providing necessary code for maze-solving tasks.	

PROJECTS

- Developed a comprehensive web application enabling users to upload and manage property information seamlessly. This platform consolidates property data, eliminating the need for multiple documents, which would be particularly beneficial in countries where paper-based processes are still prevalent. Key features include an AI-powered chatbot, natural language understanding, speech recognition, and scheduling capabilities.
- Developed a classic Pong game for the Game Boy Advance (GBA) using the Butano library and C++, ensuring compatibility with the GBA platform.
- Developed generative AI applications using Google Colab, GitHub, Microsoft and OpenAI services.

SKILLS

- Programming Languages: Python, C, Java
- Operating Systems: Unix/Linux
- Artificial Intelligence: AI Applications, AI Image Generation Applications
- Database Tools: DBeaver (MySQL, PostgreSQL)

AWARDS / ACCOMPLISHMENTS

- HOPE Scholarship Recipient
- Dean’s List: Fall 2021, Spring 2022, Fall 2023
- STEM Student Scholar Award Recipient 2024
